- 1. With reference to subject request submitted by Colonel Robert Taylor III, this is to edvise you that no new information of cignificance has been evaluated since the report which was sent you as of 9 Nerch 1949.
- information reports as are produced on this subject are furnished your department routinely through normal distribution channels and the distribution of monthly summaries seems unnecessary. Further, it is not believed desirable to submit monthly status reports on requests for intelligence information; and as stated in the previous report, it is impossible to determine the expected date of completion.
- 3. Intelligence information on this and other subjects pertaining to nuclear energy is evaluated informally by the Joint Miclear Energy Intelligence Committee, and Lt. Colonel W. E. Boyd, your representative, lo is a position to receive all the evaluated information on this subject as it is produced.
